INDEX TO VOLUME 40 OF MAYO CLINIC PROCEEDINGS

1965

Aaro, L. A.: see Jensen, P. A., jt. auth.
Abnormalities: anomalous connection of pulmonary veins to right atrium associated with anomalous inferior vena cava, situs inversus and multiple spleens, 609
blood platelet (including discussion of qualitative platelet diseases), 625
surgical correction of common atrium with anomalously connected persistent left superior vena cava, case, 528
total coronary arterial circulation from pulmonary artery with survival to age 7, case, 539
Abnormalities, cardiac: 5 unusual cases of congenital heart disease, 513-543
Abnormalities, skeletal: chondrodystrophies, 481
Abstracts: 184; 270; 348; 428; 500; 588; 652; 731; 805; 886; 949
Abu-Jamra, F. N.: see Erich, J. B., jt. auth.
Accidents, automobile: severe extension-flexion injuries of cervical spine, 353
Achaval, Alberto, Tauxe, W. N., and Gambill, E. E. (with technical assistance of Dorothy Jenkins): Scintillation scanning of the liver, 206
Acid-citrate-dextrose versus heparinized blood for cardiopulmonary bypass, 859
Actinomycosis, primary, of rectum with multiple perianal and perineal fistulae, 296
Adaptation to expanding environment, man's (Mayo Centennial Symposium), 3-111
Adrenocortical preparations: studies in nephrotic syndrome. I. Survival of 135 children with nephrotic syndrome treated with adrenal steroids, 384
Alarcón-Segovia, Donato, Bartholomew, L. G., Cain, J. C., and Baggenstoss, A. H.: Significance of the lupus erythematosus cell phenomenon in older women with chronic hepatic disease, 193
Albert, A.: Large-scale separation of follicle stimulating and luteinizing hormones from male urine, 312
Hahn, H. B., Jr., and Andersen, R. N.: Direct preparation of separable luteinizing hormone from urine of men, 216
Alkaptonuria, spuriously increased urate values in, 127
Amphotericin B therapy in treatment of focal pulmonary cryptococcosis, evaluation of, 552
Anal fistulae: primary actinomycosis of rectum with multiple perianal and perineal fistulae, 296
Anasarca associated with Graves' disease, 334
Andersen, R. N.: see Albert, A., jt. auth.
Angiography, 5 unusual cases of congenital heart disease, 513-543
Anomalous connection of pulmonary veins to right atrium associated with anomalous inferior vena cava, situs inversus, and multiple spleens, 609
Anomalous systemic venous connection, total surgical correction of, case, 532
Anorexia and emaciation, diencephalic syndrome of infancy presenting with, case, 327
Antibiotic agents: Mima polymorpha meningitis, 2 cases in children, 236
note on concentration of nafcillin in human bile, 700
primary actinomycosis of rectum with multiple perianal and perineal fistulae, 296
Anticoagulant therapy, hematoma of rectus abdominis muscle complicating, 760
Aorta: 5 unusual cases of congenital heart disease, 513-543
Apparatus: modifications in assembly and sterilization of Kiil dialyzer and Quinton-Scribner tank, 462
new multicontact, multipurpose, brain depth probe; details of construction, 771
new multicontact, multipurpose, brain depth probe; first experimental results, 781
new multipurpose brain depth probe; long-term implantation and electroencephalographic recording in man, monkey, and cat, 791
Appetite disorders: diencephalic syndrome of infancy presenting with anorexia and emaciation, case, 327
Appleman, R. M., and Beahrs, O. H.: Surgical management of gastrointestinal hemorrhage from an undetermined source, 121
Archambeau, P. L., Hollenhorst, R. W., and Rucker, C. W.: Posterior uveitis as a manifestation of multiple sclerosis, 544
Arterial circulation, total coronary, from pulmonary artery with survival to age 7, case, 539
Arterial replacement, 853
Arteries: pathogenesis of atherosclerosis, 815
Arteries, vertebral: symptomatic bilateral "subclavian steal," 473
Arthritic hand, surgery of; Sterling Bunnell Memorial Lecture, 132
Arthritis: rheumatoid granulomatous lesion simulating malignancy in head and neck of femur, 766
Arthritis of shoulder, bacterial, 695
Arthro-ophthalmopathy, progressive, hereditary, 433
Asthma, chronic, glomectomy for, 895
Atherosclerosis: symptomatic bilateral "subclavian steal," 473
Atherosclerosis, pathogenesis of, 815
Atresia, pulmonary valve, with coronary-pulmonary artery fistula, surgical repair for, case, 521
Atrium: 5 unusual cases of congenital heart disease, 513-543
Atrium, common, with anomalously connected persistent left superior vena cava, surgical correction of, case, 528
right, anomalous connection of pulmonary veins to, associated with anomalous inferior vena cava, situs inversus and multiple spleens, 609
Atrophy, peroneal muscular, and pes cavus: Virginia kinship with hereditary sensory neuropathy, 685
Audiometry, cortical, objective method of evaluating auditory acuity in man, 273
Automobile accidents: severe extension-flexion injuries of cervical spine, 353

Babb, R. R., Spittell, J. A., Jr., and Bartholomew, L. G.: Hematoma of the rectus abdominis muscle complicating anticoagulant therapy, 760
Bacteria: Mima polymorpha meningitis, 2 cases in children, 236
Bacterial arthritis of shoulder, 695
Bacterial survey of 2 areas in 1 hospital by settling-plate method, 708

Baggenstoss, A. H.: A patient with renal failure (clinicopathologic conference), 415
see Alarcón-Segovia, Donato, jt. auth.
Barker, N. W.: Comments on symposium on peripheral vascular disease, 812; 820; 829; 832; 850; 857
Bartholomew, L. G.: see Alarcón-Segovia, Donato, jt. auth.
see Babb, R. R., jt. auth.
Beahrs, O. H.: A patient with abdominal pain and fever, (clinicopathologic conference), 260
see Appleman, R. M., jt. auth.
Belau, P. G.: see Stickler, G. B., jt. auth.
Bernatz, P. E.: Arterial replacement, 853
see Coder, D. M., jt. auth.
Bickford, R. G.: see Cody, D. T. R., jt. auth.
see Fischer-Williams, M., jt. auth.
see Ray, C. D., jt. auth.
Bile: ultrastructural changes of liver in benign recurrent cholestasis, 288
Bile, human, note on concentration of nafcillin in, 700
Biliary tract: scintillation scanning of liver, 206
Bilirubin metabolism in newborn, 868
Bleeding: surgical management of gastrointestinal hemorrhage from undetermined source, 121
Blindness: hereditary progressive arthro-ophthalmopathy, 433
Blood: action of plasmin and streptokinase on canine intervertebral disk, 705
bilirubin metabolism in newborn, 868
hematoma of rectus abdominis muscle complicating anticoagulant therapy, 760
hypercoagulability and thrombosis, 830
modifications in assembly and sterilization of Kiil dialyzer and Quinton-Scribner tank, 462
monocytosis; current appraisal, 248
serum creatine kinase, lactic dehydrogenase, and glutamic-oxalacetic transaminase in thyroid diseases and pregnancy, 300
spuriously increased urate values in alkaptonuria, 127
symposium on peripheral vascular disease, 809-858
Blood circulation: frostbite, 932
Blood coagulation, changes during pregnancy, 370
Blood flow: symptomatic bilateral "subclavian steal," 473
Blood, heparinized versus acid-citrate-dextrose, for cardiopulmonary bypass, 859
Blood platelet (including discussion of qualitative platelet diseases), 625
Blood pressure: role of atrophic kidney in hypertension, 834
Blood sugar: solitary metastatic cancer of mandible; 3 cases with associated hyperglycemia, 392
Bloodstream: electron microscopic studies of absorption of colloidal gold from subarachnoid space, 603
Bone deformities: chondrodystrophies, 481
Bonnemaison, M. F. E.: see Lofgren, K. A., jt. auth.
Books reviewed: 239; 295
Bowie, E. J. W., Thompson, J. H., Jr., and Owen, C. A., Jr.: The blood platelet (including a discussion of the qualitative platelet diseases), 625
see Todd, Margaret E., jt. auth.
Brain: cortical audiometry; objective method of evaluating auditory acuity in man, 273
Brain depth probe, new multicontact, multipurpose: details of construction, 771
Brain depth probe, new multicontact, multipurpose: first experimental results, 781
Brain depth probe, new multipurpose: long-term implantation and electroencephalographic recording in man, monkey, and cat, 791
Brain tumor: diencephalic syndrome of infancy presenting with anorexia and emaciation, case, 327
Breast: augmentation mammaplasty, 397
Brown, A. L., Jr.: Pathogenesis of atherosclerosis, 815
Brown, R. B., Burke, E. C., and Stickler, G. B.: Studies in nephrotoic syndrome. I. Survival of 135 children with nephrotic syndrome treated with adrenal steroids, 384
Brown, Richard: see Ongley, P. A., jt. auth.
Brown, W. F., Masson, J. K., Harrison, E. G., Jr., and McConahey, W. M.: Solitary metastatic cancer of the mandible: 3 cases with associated hyperglycemia, 392
Bunnell, Sterling, Memorial Lecture: surgery of arthritic hand, 132
Burke, E. C.: Commentary on urinary tract infections in children, 113
see Brown, R. B., jt. auth.
see Burkhart, J. M., jt. auth.
see Peyla, T. L., jt. auth.
see Sigler, R. M., jt. auth.
see Stickler, G. B., jt. auth.
Burkhart, J. M., Burke, E. C., and Kelly, P. J.: The chondrodystrophies, 481
Bypass, cardiopulmonary, heparinized versus acid-citrate-dextrose blood for, 859

Cain, J. C.: see Alarcón-Segovia, Donato
Cancer: use of tomography following thorium dioxide infusions to demonstrate malignant lesions in liver, 456
Cancer of mandible, solitary metastatic, 3 cases with associated hyperglycemia, 392
Capillaries: electron microscopic studies of absorption of colloidal gold from subarachnoid space, 603
Cardiac catheterization: 5 unusual cases of congenital heart disease, 513-543
Cardiac failure, progressive, patient with (clinicopathologic conference), 165
Cardiopulmonary bypass, heparinized versus acid-citrate-dextrose blood for, 859
Carson, Rachel (In Memoriam), 5
Cartilage: chondrodystrophies, 481
Centennial Symposium, Mayo: Mirror to man—man's adaptation to his expanding environment, 3-111
Central nervous system: posterior uveitis as manifestation of multiple sclerosis, 544
Cervical spine, severe extension-flexion injuries of, 353
Cesarean section: review of 10-year series, 338
Chaves-Carballo, Enrique: see Hayles, A. B., jt. auth.
Chemotherapy of hyperlipidemia, 822
Childhood. migraine in, follow-up report, 593
Children: commentary on urinary tract infections in, 113
Children, Mima polymorpha meningitis in, 2 cases, 236
Children, therapeutic trial with antithyroid drugs for exophthalmic goiter in, 889
Cholestasis, benign recurrent, ultrastructural changes of liver in, 288
Chondrodystrophies, 481
Cinefluorocystography: commentary on urinary tract infections in children, 113
Circulation, total coronary arterial, from pulmonary artery with survival to age 7, case, 539
Cirrhosis: scintillation scanning of liver, 206
significance of lupus erythematosus cell phenomenon in older women with chronic hepatic disease, 193
Clark, L. C., Jr.: see Ray, C. D., jt. auth.
Clinic on endocrine and metabolic diseases. Myxedema precoma; complications and therapy, 403
Anasarca associated with Graves' disease, 334

Clinical reviews: 191
Clinicopathologic conference. Fever terminating after stillbirth, 574
Patient with abdominal pain and fever, 260
Patient with progressive cardiac failure, 165
Patient with renal failure, 415
Patient with steatorrhea and Raynaud's phenomenon, 714
Coagulation: blood platelet (including discussion of qualitative platelet diseases), 625
hypercoagulability and thrombosis, 830
Coagulation, blood changes during pregnancy, 370
Codeine: migraine in childhood, follow-up report, 593
Coder, D. M., Frye, R. L., Bernatz, P. E., and Sheps, S. G.: Symptomatic bilateral "subclavian steal," 473
Cody, D. T. R., and Bickford, R. G.: Cortical audiometry: an objective method of evaluating auditory acuity in man, 273
Simonton, K. M., Hallberg, O. E., and Hedgecock, L. D.: Stapedectomy for otosclerosis: an analysis of results, 740
Colloidal gold, absorption from subarachnoid space, electron microscopic studies of, 603
Coma: myxedema precoma; complications and therapy, 403
Communicable disease: bacterial survey of 2 areas in 1 hospital by settling-plate method, 708
Congenital cup-shaped deformity of ears transmitted through 4 generations, 597
Congenital heart disease, 5 unusual cases of, 513-543
Contamination: bacterial survey of 2 areas in 1 hospital by settling-plate method, 708
modifications in assembly and sterilization of Kiil dialyzer and Quinton-Scribner tank, 462
Cor pulmonale, chronic, observations on value of electrocardiogram in patients with, 745
Corne, R. A., and Parkin, T. W.: Evaluation of 2 methods of determining direction of mean manifest QRS axis in the frontal plane in routine scalar electrocardiograms, 901
Coronary arterial circulation, total, from pulmonary artery with survival to age 7, case, 539
Coronary artery disease: chemotherapy of hyperlipidemia, 822
Coronary sclerosis: evaluation of 2 methods of determining direction of mean manifest QRS axis in frontal plane in routine scalar electrocardiograms, 901
Cortical audiometry: objective method of evaluating auditory acuity in man, 273
Corticosteroid therapy: glomectomy for chronic asthma, 895
Cosmetic surgery: augmentation mammaplasty, 397
Coventry, M. B.: Resection of the metatarsal heads to relieve pain and deformity, 240
see Kelly, P. J., jt. auth.
Cracco, Joan B., Dower, J. C., and Harris, L. E.: Bilirubin metabolism in the newborn, 868
Cryptococcosis, focal pulmonary, evaluation of necessity of amphotericin B therapy, 552
Culp, C. E.: see Fry, G. A., jt. auth.
Current practices. Stasis ulcer, 564
Resection of metatarsal heads to relieve pain and deformity, 240
Cystic fibrosis with fecal retention (meconium ileus equivalent), 2 cases, 477

Dahlin, D. C.: A patient with abdominal pain and fever (clinicopathologic conference), 260
Davis, G. D.: see Rastelli, G. C., jt. auth.
Deafness: cortical audiometry; objective method of evaluating auditory acuity in man, 273
Dearing, W. H.: see Fry, G. A., jt. auth.
Deformities: chondrodystrophies, 481
hereditary progressive arthro-ophthalmopathy, 433
surgery of arthritic hand; Sterling Bunnell Memorial Lecture, 132
Virginia kinship with hereditary sensory neuropathy; peroneal muscular atrophy and pes cavus, 685
Deformity of ears, congenital cup-shaped, transmitted through 4 generations, 597
Deformity and pain, resection of metatarsal heads to relieve, 240
Dermatologic clinic. Clinical spectrum of urticaria pigmentosa, 923
Diabetes mellitus: solitary metastatic cancer of mandible; 3 cases with associated hyperglycemia, 392
Dialyzer, Kiil, and Quinton-Scribner tank, modifications in assembly and sterilization of, 462
Dickson, E. R., Fletcher, J., and Summerskill, W. H. J.: Ultrastructural changes of the liver in benign recurrent cholestasis, 288
Diencephalic syndrome of infancy presenting with anorexia and emaciation, case, 327
Diet: chemotherapy of hyperlipidemia, 822
Dines, D. E., and Parkin, T. W.: Some observations on the value of the electrocardiogram in patients with chronic cor pulmonale, 745
Dirofilariasis, human and canine, in United States, 906
Disease, chronic hepatic, significance of lupus erythematosus cell phenomenon in older women with, 193
Disease, communicable: bacterial survey of 2 areas in 1 hospital by settling-plate method, 708
Disease, congenital heart, 5 unusual cases of, 513-543
Disease, Graves', anasarca associated with, 334
Disease, peripheral vascular, symposium on, 809-858
Diseases: bacterial arthritis of shoulder, 695
clinical spectrum of urticaria pigmentosa, 923
cystic fibrosis with fecal retention (meconium ileus equivalent), 2 cases, 477
focal pulmonary cryptococcosis; evaluation of necessity of amphotericin B therapy, 552
monocytosis; current appraisal, 248
myxedema precoma; complications and therapy, 403
observations on value of electrocardiogram in patients with chronic cor pulmonale, 745
pathogenesis of atherosclerosis, 815
posterior uveitis as manifestation of multiple sclerosis, 544
surgery of arthritic hand; Sterling Bunnell Memorial Lecture, 132
symptomatic bilateral "subclavian steal," 473
Diseases, qualitative platelet (blood platelet), 625
Diseases, renal: role of atrophic kidney in hypertension, 834
survival of 135 children with nephrotic syndrome treated with adrenal steroids, 384
Disk, canine intervertebral, action of plasmin and streptokinase on, 705
Donoghue, F. E.: see Geraci, J. E., jt. auth.
Dower, J. C.: see Cracco, Joan B., jt. auth.
Doxiadis, C. A.: On the measure of man: challenge and response in the anthropocosmos (Mayo Centennial Symposium), 71; panel discussion, 91

Drugs: amphotericin B therapy in treatment of focal pulmonary cryptococcosis, evaluation of, 552
chemotherapy of hyperlipidemia, 822
commentary on urinary tract infections in children, 113
migraine in childhood, follow-up report, 593
note on concentration of nafcillin in human bile, 700
use of tomography following thorium dioxide infusions to demonstrate malignant lesions in liver, 456
Drugs, antithyroid, therapeutic trial for exophthalmic goiter in children, 889
Duodenal ulcer, operative risk for patients with, 737
Dyck, P. J., Kennel, A. J., Magal, I. V., and Kraybill, E. N.: A Virginia kinship with hereditary sensory neuropathy: peroneal muscular atrophy and pes cavus, 685

Ears: cortical audiometry; objective method of evaluating auditory acuity in man, 273
stapedectomy for otosclerosis; analysis of results, 740
Ears, congenital cup-shaped deformity of, transmitted through 4 generations, 597
Ectopia cordis, partial, simulating tricuspid atresia, case, 513
Edema: anasarca associated with Graves' disease, 334
survival of 135 children with nephrotic syndrome treated with adrenal steroids, 384
Edwards, J. E.: see Ongley, P. A., jt. auth.
Eiseley, Loren: Freedom of the Juggernaut (Mayo Centennial Symposium), 7; panel discussion, 91
Elastic support: stasis ulcer, 564
Electrocardiograms, routine scalar, evaluation of 2 methods of determining direction of mean manifest QRS axis in frontal plane in, 901
Electrocardiography: observations on value of electrocardiogram in patients with chronic cor pulmonale, 745
Electrodes: new multicontact, multipurpose, brain depth probe; details of construction, 771
new multicontact, multipurpose, brain depth probe; first experimental results, 781
new multipurpose brain depth probe: electroencephalographic recording in man, monkey and cat, 791
Electroencephalography: cortical audiometry; objective method of evaluating auditory acuity in man, 273
new multicontact, multipurpose, brain depth probe; details of construction, 771
new multicontact, multipurpose, brain depth probe; first experimental results, 781
new multicontact brain depth probe: implantation and electroencephalographic recording in man, monkey, and cat, 791
Electron microscopic studies of absorption of colloidal gold from subarachnoid space, 603
Ellis, F. H., Jr.: see Geraci, J. E., jt. auth.
Emaciation and anorexia, diencephalic syndrome of infancy presenting with, case, 327
Endocrinology: large-scale separation of follicle stimulating and luteinizing hormones from male urine, 312
Environment, expanding, man's adaptation to (Mayo Centennial Symposium), 3-111
Enzymes: action of plasmin and streptokinase on canine intervertebral disk, 705
serum creatine kinase, lactic dehydrogenase, and glutamic-oxalacetic transaminase in thyroid diseases and pregnancy, 300
Epiphyseal dysplasia: chondrodystrophies, 481
Erich, J. B.: Augmentation mammaplasty, 397
and Abu-Jamra, F. N.: Congenital cup-shaped deformity of the ears transmitted through 4 generations, 597
Etiology and pathogenesis of anasarca associated with Graves' disease, 334
Exophthalmic goiter in children: therapeutic trial with antithyroid drugs, 889
Extension-flexion injuries of cervical spine, severe, 353
Eyes: hereditary progressive ortho-ophthalmopathy, 433
posterior uveitis as manifestation of multiple sclerosis, 544

Farrell, F. J.: see Stickler, G. B., jt. auth.
Fecal retention with, cystic fibrosis, (meconium ileus equivalent), 2 cases, 477
Feet: resection of metatarsal heads to relieve pain and deformity, 240
Virginia kinship with hereditary sensory neuropathy; peroneal muscular atrophy and pes cavus, 685
Feldt, R. H., Ongley, P. A., and Titus, J. L.: Total coronary arterial circulation from pulmonary artery with survival to age 7, case, 539
Femur, rheumatoid granulomatous lesion simulating malignancy in head and neck of, 766
Fever and abdominal pain, patient with (clinicopathologic conference), 260
Fibrosis, cystic, with fecal retention (meconium ileus equivalent), 2 cases, 477
Fingers: surgery of arthritic hand; Sterling Bunnell Memorial Lecture, 132
Fischer-Williams, M., and Bickford, R. G.: A new multipurpose brain depth probe: long-term implantation and electroencephalographic recording in man, monkey, and cat, 791
Fistula, coronary-pulmonary artery, with pulmonary valve atresia, surgical repair for, case, 521
Fistulae, multiple, perianal and perineal, primary actinomycosis of the rectum with, 296
Fleisher, G. A., McConahey, W. M., and Pankow, Marcella: Serum creatine kinase, lactic dehydrogenase, and glutamic-oxalacetic transaminase in thyroid diseases and pregnancy, 300
Fletcher, J.: see Dickson, E. R., jt. auth.
Flexion-extension injuries of cervical spine, severe, 353
Fluid balance: myxedema precoma; complications and therapy, 403
Fowler, W. S.: see Swedlund, H. A., jt. auth.
Frontal plane in routine scalar electrocardiograms, evaluation of 2 methods of determining direction of mean manifest QRS axis in, 901
Frostbite, 932

Hollenhorst, R. W.: see Archambeau, P. L., jt. auth.
Homografts: arterial replacement, 853
Hooshmand, Hooshang: see Janes, J. M., jt. auth.
Hormone, separable luteinizing, from urine of men, direct preparation of, 216
Hormones, luteinizing, from male urine, follicle stimulating and large-scale separation of, 312
Hospital, bacterial survey by settling-plate method of 2 areas in, 708
Human bile, note on concentration of nafcillin in, 700
Human pituitary gonadotropin (HPG): direct preparation of separable luteinizing hormone from urine of men, 216
Hunder, G. G., Ward, L. E., and Ivins, J. C.: Rheumatoid granulomatous lesion simulating malignancy in the head and neck of the femur, 766
Hunt, J. C.: A patient with renal failure, (clinicopathologic conference), 415
Hypercholesteremia: chemotherapy of hyperlipidemia, 822
Hypercoagulability and thrombosis, 830
Hyperglycemia, associated, solitary metastatic cancer of mandible; 3 cases, 392
Hyperlipidemia, chemotherapy of, 822
Hypertension, role of atrophic kidney in, 834

Indenbaum, Samuel, Ward, L. E., and Tauxe, W. N.: Spuriously increased urate values in alkaptonuria, 127
Infection: bacterial arthritis of shoulder, 695
bacterial survey of 2 areas in 1 hospital by settling-plate method, 708
focal pulmonary cryptococcosis, evaluation of necessity of amphotericin B therapy, 552
Infections in children, urinary tract, 113
Inflammation: posterior uveitis as manifestation of multiple sclerosis, 544
Injuries, severe extension-flexion, of cervical spine, 353
Instruments: new multicontact, multipurpose, brain depth probe; details of construction, 771
new multicontact, multipurpose, brain depth probe; first experimental results, 781
new multipurpose brain depth probe; long-term implantation and electroencephalographic recording in man, monkey, and cat, 791
Intervertebral disk, canine, action of plasmin and streptokinase on, 705

Intestine: surgical management of gastrointestinal hemorrhage from undetermined source, 121

MEETINGS TO BE HELD IN ROCHESTER

Feb. 24, 25, 26	*Operable Heart Disease* (Postgraduate Course in Cardiology to be held in cooperation with the Council on Clinical Cardiology of the American Heart Association and the American College of Cardiology)
Mar. 28, 29, 30	Clinical Reviews
Apr. 4, 5, 6	Clinical Reviews (sessions are identical to those on Mar. 28, 29, 30)
